

RHYTHM GANDHI

Chandigarh (UT), India ♦ +91-7696361624 ♦ rhythmgandhi2005@gmail.com ♦ linkedin.com/in/rhythm-gandhi95350928a

PROFESSIONAL SUMMARY

Fourth-year B.Tech Computer Science (AI & ML) student at VIT Bhopal University with a strong foundation in Python, SQL, Data Structures & Algorithms, and software engineering fundamentals. Hands-on experience developing AI-enabled academic projects using Large Language Models and REST APIs, with a keen interest in data analysis, problem solving, and deriving insights from data to support informed decision-making.

EDUCATION

Bachelor of Technology in Computer Science and Engineering (AI & ML)	Expected 2027
VIT Bhopal University, CGPA: 8.44	
Senior School Certificate Examination (CBSE), Class 12	2023
Ryan International School, Chandigarh,	

TECHNICAL SKILLS

- **Programming Languages:** Python, Java,MySQL.
- **Frameworks & Technologies:** FastAPI, Flask, Streamlit, REST APIs, Firebase.
- **AI & Machine Learning:** Large Language Models (Gemini, Mistral), Prompt Engineering, Natural Language Processing (NLP), Retrieval-Augmented Generation (RAG).
- **Tools:** Git, Google APIs.
- **Core CS:** Data Structures & Algorithms, Database Design,Object-Oriented Programming, DBMS, Operating Systems , Computer Networks, Problem Solving
- **Languages:** English, Hindi

PROJECTS

LawBridge – AI Legal Intelligence Platform | GitHub Repository

Tech Stack: Python, FastAPI, React.js, Google Gemini API, Firebase

- Developed a full-stack AI-powered legal assistance platform using FastAPI and React.js.
- Integrated Google Gemini API to provide AI-assisted legal guidance, case analysis, and document generation.
- Built REST APIs for seamless frontend-backend communication and implemented Firebase Authentication for secure user access.
- Designed modular prompt-engineered AI workflows to deliver context-aware legal assistance.
- Structured the application using a scalable client-server architecture with reusable backend services.

Future Forge – AI Career Path Generator | GitHub Repository

Tech Stack: Python, Streamlit, Gemini API, Machine Learning

- Developed an AI-powered career recommendation application using Google Gemini API and Machine Learning.
- Applied decision trees and prompt engineering to improve recommendation quality.
- Built a responsive Streamlit interface for an interactive user experience.

Samantha AI – Conversational AI System | GitHub Repository

Tech Stack: Python, Flask, Mistral 7B, Speech Recognition

- Developed a conversational voice assistant using speech recognition and Large Language Models.
- Integrated speech-to-text, text-to-speech, and Mistral 7B to enable natural language interactions.
- Built AI-powered response generation using external APIs for conversational assistance.

EXPERIENCE

Event Lead — Pahal NGO Initiative

- Led the planning and execution of educational outreach events by coordinating volunteers, managing event logistics, and ensuring timely and successful execution of activities.

Volunteer — National Service Scheme (NSS)

- Supported community welfare drives requiring patience, empathy, and clear communication with diverse user groups — core qualities for customer-facing, fast-paced environments.

CERTIFICATIONS

- ServiceNow Administration Fundamentals On Demand: *ServiceNow* | June 2026
- Certified Ethical Hacker (CEH v12) – EC-Council | Issued: Mar 2025
- Amazon HackOn– Top 130 out of 13,000 teams selected, | 2025
- Google Olympics Achievement – Google Developer Group, VIT | Feb 2025
- Certificate in Software & Data Processing (Core Python) – NICT Tech | Issued: Jul 2024
