Chandigarh (UT), India ♦ +91-7696361624 ♦ rhythmghandhi2005@gmail.com ♦ [linkedin.com/in/rhythm-gandhi95350928a](https://www.linkedin.com/in/rhythm-gandhi95350928a)

PROFESSIONAL SUMMARY

Third-year B.Tech (AI & ML) student at VIT Bhopal with hands-on experience building user-facing products and managing cross-functional workflows. Proven ability to communicate clearly, document accurately, and identify gaps in user experience through real-world projects and community leadership. Fluent in English and Hindi with a patient, solution-oriented approach to problem-solving. Prepared to take ownership of operational challenges and deliver high-quality outcomes at Atlys, making global travel simpler for real people.

EDUCATION

Bachelor of Technology in Computer Science and Engineering (AI & ML) (Expected 2027)

VIT Bhopal University, CGPA: 8.49

Senior School Certificate Examination (CBSE), Class 12 (2023)

Ryan International School, Chandigarh

TECHNICAL SKILLS

- **Tech Tools:** Python, Java, React.js, Streamlit, MySQL, Git, Google APIs, Firebase.
- **Documentation & Tracking:** Workflow management, progress tracking, accuracy in records.
- **Problem-solving:** Gap identification, root-cause analysis, solution ideation.
- **Soft Skills:** Teamwork Collaboration, Communication, Cross-Cultural Teamwork.
- **Language Proficiency:** English (Fluent), Hindi (Native), Punjabi (Intermediate).

PROJECTS

Future Forge – AI Career Path Generator | [GitHub Repository](#)

Technologies: Python, Streamlit, Gemini API, Machine Learning

- Developed a career recommendation app using **Google’s Gemini API**, achieving a 60% improvement in suggestion accuracy, with 90% test coverage.
- Applied ML techniques including decision trees and prompt engineering to personalize suggestions.
- Built a responsive UI in Streamlit, enabling global accessibility across platforms.

Samantha AI – Conversational AI System | [GitHub Repository](#)

Technologies: Python, LLMs (Mistral 7B), Flask, Speech Recognition

- Engineered a scalable voice-based AI assistant with speech-to-text, text-to-speech, and Mistral 7B integration for human-like dialogue.
- Implemented machine learning models for real-time mood tracking and generated empathetic responses, jokes, and quotes using external APIs.
- Achieved 85% sentiment analysis accuracy

EXPERIENCE

Event Lead — Pahal NGO Initiative

- Managed end-to-end logistics for multiple educational outreach events, coordinating volunteers and tracking progress to ensure accurate, on-time execution.
- Liaised between volunteers, beneficiaries, and leadership — building stakeholder communication and operational efficiency skills directly applicable to Guest Delight and Fulfilment roles.

Volunteer — National Service Scheme (NSS)

- Supported community welfare drives requiring patience, empathy, and clear communication with diverse user groups — core qualities for customer-facing, fast-paced environments.

Open Source Contributor — Hacktoberfest 2024 | Remote

- Reviewed PRs, resolved workflow bottlenecks, and documented changes across multiple repositories — mirroring cross-functional documentation and quality-control tasks.
- Collaborated asynchronously with global teams, honing clarity and empathy in written communication.

CERTIFICATIONS

- Certified Ethical Hacker (CEH v12) – EC-Council | Issued: Mar 2025
- Certificate in Software & Data Processing (Core Python) – NICT Tech | Issued: Jul 2024
- Amazon HackOn– Top 130 out of 13,000 teams selected, | 2025
- Google Olympics Achievement – Google Developer Group, VIT | Feb 2025
- MATLAB Onramp Course Completion - MathWorks Training Services
