PROFESSIONAL SUMMARY

Fourth-year B.Tech Computer Science (Artificial Intelligence & Machine Learning) student at VIT Bhopal University with a strong foundation in Python, SQL, Data Structures & Algorithms, and software engineering fundamentals. Hands-on experience in financial analytics, enterprise application development, backend APIs, and database management through academic projects. Passionate about building reliable, data-driven software solutions and solving real-world business problems through technology.

EDUCATION

VIT Bhopal University
Bachelor of Technology in Computer Science and Engineering (AI & ML); CGPA: 8.44
Ryan International School
Senior School Certificate Examination (CBSE), Class XII

Bhopal, India
Expected 2027
Chandigarh, India
2023

TECHNICAL SKILLS

Programming Languages: Python, Java, SQL
Databases: MySQL, Firebase
Frameworks & Tech: FastAPI, Flask, React.js, REST APIs, Streamlit
Analytics & Visualization: Excel, Power BI
AI & APIs: Google Gemini API, Prompt Engineering, NLP
Tools: Git, GitHub
Core CS: Data Structures & Algorithms, OOP, DBMS
Systems: Operating Systems, Computer Networks, Problem Solving

PROJECTS

- Loan Recovery & Collections Analytics Dashboard** | *Python, SQL, Excel, Power BI* | GitHub

 - Automated KPI extraction, customer risk segmentation, and loan performance reporting using Python and SQL.
 - Analyzed delinquency trends, recovery rates, and portfolio health through SQL-based analytics.
 - Built interactive Excel/Power BI dashboards for collections and financial performance monitoring.
- Enterprise Knowledge Management System** | *Python, SQL* | GitHub

 - Developed an enterprise information management system with structured storage, retrieval, and reporting workflows.
 - Designed relational database schemas and implemented backend logic for efficient data management.
 - Improved information organization and retrieval through modular backend services.
- LawBridge – AI Legal Intelligence Platform** | *Python, FastAPI, React.js, Gemini API, Firebase* | GitHub

 - Developed backend APIs using FastAPI and integrated AI services through REST APIs.
 - Implemented Firebase Authentication and modular backend architecture for secure user access.
 - Worked on scalable frontend-backend integration for AI-enabled legal assistance workflows.

EXPERIENCE

- Pahal NGO Initiative** | Event Lead

Led the planning and execution of educational outreach events by coordinating volunteers and event logistics.
- National Service Scheme (NSS)** | Volunteer

Supported community welfare drives requiring patience, empathy, and clear communication with diverse user groups.

CERTIFICATIONS

- Certified Ethical Hacker (CEH v12):** EC-Council (March 2025)
- ServiceNow Administration Fundamentals On Demand:** ServiceNow (June 2026)
- Amazon HackOn:** Top 130 out of 13,000 teams selected (2025)
- Google Olympics Achievement:** Google Developer Group, VIT (Feb 2025)
- Certificate in Software & Data Processing (Core Python):** NICT Tech (Jul 2024)
