

RHYTHM GANDHI

Aspiring Software Engineering Intern | AI/ML | Cybersecurity | CEH Certified
Chandigarh (UT), India ♦ +91-7696361624 ♦ rhythmghandhi2005@gmail.com ♦ linkedin.com/in/rhythm-gandhi95350928a

PROFESSIONAL SUMMARY

Computer Science undergraduate (B.Tech, AI & ML) at VIT Bhopal (Graduating 2027) with a strong foundation in data structures, full-stack software development, and applied machine learning. CEH (v12) certified, experienced in AI model integration, real-time systems, and cross-functional team collaboration. Passionate about solving real-world problems with scalable tech solutions.

EDUCATION

Bachelor of Technology in Computer Science and Engineering (AI & ML)

VIT Bhopal University – Expected 2027

Senior School Certificate Examination (CBSE), Class 12

Ryan International School, Chandigarh – 2023

TECHNICAL SKILLS

Languages: Python, C++, Java

Frameworks & Tools: Git, React.js, Streamlit, FastAPI, MySQL

AI & ML: YOLOv8, OpenCV, Gemini API, Prompt Engineering, Model Tuning, LLMs (Mistral 7B)

Concepts: Data Structures & Algorithms, OOP, Operating Systems, Cybersecurity

Platforms: Linux, Windows

Soft Skills: Teamwork Collaboration, Communication, Problem-solving, Cross-Cultural Teamwork

Language Proficiency: English (Fluent), Hindi (Native), Punjabi (Intermediate)

PROJECTS

Future Forge – AI Career Path Generator | [GitHub Repository](#)

Technologies: Python, Streamlit, Gemini API, Machine Learning

- Developed a career recommendation app using **Google's Gemini API**, achieving a 60% improvement in suggestion accuracy.
- Applied ML techniques including decision trees and prompt engineering to personalize suggestions.
- Built a responsive UI in Streamlit, enabling global accessibility across platforms.

ShastraEye – Surveillance & Threat Detection | [GitHub Repository](#)

Technologies: YOLOv8, OpenCV, Python, FastAPI, Arduino

- Developed real-time object detection system with YOLOv8 and OpenCV.
- Implemented FastAPI backend for concurrent stream handling.
- Integrated Arduino for physical alert systems, showcasing embedded systems familiarity.

Samantha AI – Conversational AI System | [GitHub Repository](#)

Technologies: Python, LLMs (Mistral 7B), Flask, Speech Recognition

- Engineered a scalable voice-based AI assistant with speech-to-text, text-to-speech, and Mistral 7B integration for human-like dialogue.
- Implemented machine learning models for real-time mood tracking and generated empathetic responses, jokes, and quotes using external APIs.
- Achieved 85% sentiment analysis accuracy; integrated Google API services for email/calendar management and desktop automation (e.g., opening VS Code, browser).

Resume Skill Gap Analyzer – Cloud-Based AI Resume Optimizer | [Deploy](#)

Python, React.js, Gemini API, Firebase, GCP

- Developed an AI tool to parse resumes and job descriptions, improving ATS compatibility.
- Identified skill gaps and recommended relevant courses based on job role requirements.
- Deployed on Google Cloud for scalability and seamless access.

EXPERIENCE

Open Source Contributor

Hacktoberfest 2024 | Remote

- Contributed to automation and performance improvement repos.
- Used Git for collaboration, resolved issues, reviewed PRs.
- Gained hands-on exposure to collaborative workflows and global developer communities.

CERTIFICATIONS

- Certified Ethical Hacker (CEH v12) – EC-Council | Issued: Mar 2025
- Certificate in Software & Data Processing (Core Python) – NICT Tech | Issued: Jul 2024
- Amazon HackOn– Top 130 out of 13,000 teams selected | 2025
- PromptX AI Hackathon – CSI, VIT | Mar 2025
- MERN X AI Hackathon – VIT Hack Club | 2025
- Google Olympics Achievement – Google Developer Group, VIT | Feb 2025
- Cloud Computing Course – NPTEL

LEADERSHIP & EXTRACURRICULAR

- Event Lead, Pahal (NGO Initiative):** Organized educational outreach programs and managed logistics for social events.
- Volunteer, NSS (National Service Scheme):** Contributed to social welfare drives and literacy promotion in local communities.
- Competitive Badminton Player:** Demonstrated discipline, teamwork, and strategic thinking through sports.
